

## Kriya Yogi Sri Mukherjee Visits Melbourne Florida in April / May 2018

**Sri Mukherjee author of *Original Kriya Yoga* is coming to USA (Florida) to teach and offer initiation in Original Kriya Yoga. Meet him in Florida in April or May 2018 as described at the bottom of this flyer.**

Sri Mukherjee teaches exactly the same yoga that Lahiri Mahasaya taught to Swami Pranabananda - who taught it to Shri Gyanendranath Mukhopadhyay - who passed it directly to Sri Mukherjee. The names of Lahiri Mahasaya and Swami Pranabananda were first revealed to the public through the *Autobiography of a Yogi* (a book written by Paramahansa Yogananda) where Swami Pranabananda is known as the "Saint with Two Bodies."

Sri Mukherjee practiced *Kriya Yoga* faithfully in secret without any fanfare for more than 40 years before deciding to offer initiation. His decision to offer initiation came about after visiting various *Kriya Yoga* ashrams where he saw how *Kriya* was being taught and disseminated. Sri Mukherjee was appalled at what was being offered, as it was not pure *Kriya Yoga*, but seriously altered and far more complicated than necessary.

Sri Mukherjee and his lineage of *Gurus* (from Lahiri Mahasaya to him today) were all householders who individually taught each disciple, and not through any organization. Accordingly, during an initiation, the *Guru* shows the disciple the spiritual eye. This is done privately (one-on-one) and never in a group. *Kriya* is very subtle and has to be conveyed subtly and practiced as instructed.

The history of religion shows that the teachings of great spiritual persons are often lost, diluted, or changed after several generations of followers. Today there are many people who teach different versions of *Kriya* that differ in fundamental aspects. How is one to know what is authentic?

Traditionally, one knows something about a *Guru* from his lineage, but lineages diverge into sects. Sri Mukherjee comes from a distinguished lineage, but was inspired to practice *Kriya* exactly as he was instructed by his own *Guru*. Early on, Sri Mukherjee realized this his *Guru* had "second sight" when he was able to reveal that he knew about Sri Mukherjee's activities even without being physically present to observe them. And, prior to his *Guru*'s death, Sri Mukherjee asked him what happens after death. His *Guru* said, "Let me die and I will tell you." Sri Mukherjee laughed and thought it was a joke. After his *Guru* died, he manifested himself to Sri Mukherjee.

These and other things made Sri Mukherjee realize that his *Guru* was peerless and gave him the faith to practice exactly as he was instructed without modifying the teachings. His *Guru* wrote *Pranab Gita* which is based on his own self-realization and the notes that he faithfully took from his many meetings with Swami Pranabananda.
